RAPID-FKS SURVEY 1: PROGRAM ENGAGEMENT SCENARIOS

Survey question: We are curious about the safety measures and vaccination requirements parents need in order to feel comfortable having their children participate in programs. Please think about each of the following scenarios and choose the option that represents the minimum safety measures you are comfortable with.
Scenario 1: Play-based educational program with 15 children the same age as your child and 15 parents.
My child(ren) and I would participate in this program if (choose one from each list):

- Children are vaccinated
- Parents are vaccinated
- Program staff are vaccinated
- Children wear face coverings
- Parents wear face coverings
- Program staff wear face coverings
- Children wear surgical or N95 masks
- Parents wear surgical or N95 masks
- Program staff wear surgical or N95 masks
- Children social distance
- Parents social distance
- Program staff social distance
- Unvaccinated children have residual immunity
- Unvaccinated parents have residual immunity
- Unvaccinated program staff have residual immunity
- Program is outdoors

PARENT VOICES FROM SURVEY 1

What are your biggest challenges/concerns?

Childcare closures and staffing issues, quality childhood education, access to affordable urgent care services for childhood illnesses, gender disparities in household work

Staying healthy, paying for medical expenses, paying for daycare, can we afford to have another child?

I'm curious about the long-term mental ramifications of the pandemic for my kids. They've lived such strange lives for 2 years and I'm wondering how that will affect them when they are older.

Lack of quality infant childcare. Huge concern, likely will cause me to quit my job in the next year.

I'm concerned about the rising cost of groceries and gas while my husband's wage stays the same. The price of basic groceries (especially milk, eggs, chicken, and beef) seems to have skyrocketed and sometimes I hesitate to buy them.

What is helping you and your family the most right now?

Being able to work from home so that we don't have daycare and gas costs associated with leaving the house for work

The extra SNAP benefits...it was very helpful when we were getting the monthly child tax credit wish that would come back

Having family that can share the child care duties with us so that we can go to work.

THANK YOU.
