

## About the Ready by Five Quality and Improvement Consortium (QIC) Meetings (FY 2024)

### Who should attend?

Agendas giving an overview of the content that will be covered are sent prior to the meeting. Programs can determine who from their team should be in attendance for each meeting based on the meeting agenda.

The meeting content is generally for Program Managers and Data Managers of programs currently funded by Ready by Five.

### QIC Goals:

Foster peer-to-peer learning among programs.

Review the Ready by Five evaluation results to learn how programs are collectively having impact.

Use learnings and data to identify strategies that improve program delivery.

Build consensus of standards and definitions for Ready by Five data submissions.
